### SPECIAL FIREFIGHTING PROCEDURES

Observe recommended procedures in handling fire areas. Wear appropriate fire fighting equipment including a self-contained breathing apparatus. Avoid spreading of burning liquid with water used for cooling purposes.

### UNUSUAL FIRE AND EXPLOSION HAZARDS

Closed containers are subject to bursting on exposure to heat. Liquid evaporates and forms invisible vapors which spread easily and can be ignited by many sources such as pilot lights, welding equipment, electrical switches. Fire hazard is greater as liquid temperature rises above 85 degrees F.
